

DATACARD CERTIFIED SUPPLIES

FP65i™ SUPPLIES

FOR THE DATACARD® FP65i™ FINANCIAL CARD PRINTER

ENSURE PEAK PERFORMANCE

Insist on Datacard® Certified Supplies for the Datacard® FP65i™ financial card printer. Designed exclusively for the FP65i card printer, our ribbons, printheads and cleaning supplies can help you achieve the best image quality, most reliable printer performance and lowest possible cost-per-card.

ADVANCED, SYSTEM-MATCHED SUPPLIES

The Datacard® FP65i™ financial card printer uses Datacard® proprietary ribbons specifically designed for this printer. Only Datacard® Certified Supplies featuring Intelligent Supplies Technology™ support unembossed financial card printing. These supplies leverage patented radio frequency (RF) technology to automate color and image density adjustment, ribbon usage tracking, ribbon conservation and other value-added features. When the printer recognizes that these ribbons are installed, it enables all enhanced product features and card printing can begin. The FP65i financial card printer will only print color images when Datacard proprietary color ribbons are installed. Datacard Group is your exclusive source for proprietary ribbons for the FP65i financial card printer. Datacard® color panel ribbons also use exclusive Advanced Imaging Technology™ to deliver crisp, vivid photos, graphics and text.

MAXIMUM RIBBON YIELDS HELP REDUCE COSTS

Ribbons for the FP65i financial card printer are available in high-yield rolls that deliver more printed images per roll, which helps reduce cost-per-card. Plus, the exclusive ribbon saver feature advances monochrome ribbons just far enough to print an image, rather than the traditional full card width advancement. This can potentially double or even triple the yield of Datacard monochrome ribbons. For Datacard color panel ribbons, the ribbon saver feature allows the FP65i printer to identify the ribbon without advancing it, saving one complete panel set during each printer initialization.

FAST AND EASY INSTALLATION

All supplies for the FP65i financial card printer are extremely easy to replace. Ribbons and cleaning sleeves snap right into place with no tools or additional adjustments required. To replace the printhead, just open the printer cover, swap old for new and resume printing.

CONVENIENT SUPPLY KITS

The FP65i card printer ribbon kit includes an isopropanol cleaning card and adhesive cleaning sleeve, so you always have cleaning supplies at hand when changing ribbons. Additional cleaning supplies and accessories are available separately for more frequent cleaning.

INDENT PRINTING

The FP65i card printer provides rear indent printing for improved card security, using an indent ribbon to fill indented characters. Designed for excellent abrasion resistance, the ribbon offers easy release capabilities for clean, crisp transfer to the card. Its formulation ensures consistent quality, and it comes in a compact, easy-to-load cartridge.

DOUBLE TOPCOAT RIBBON (KTT)

The FP65i card printer now offers a K-panel (black) ribbon with two topcoat panels (KTT), which enables two topcoat applications and improves durability on the topside of the card. The KTT ribbon kit also includes an isopropanol cleaning card and adhesive cleaning sleeve.

YOUR BEST CHOICE FOR SUPPLIES

Protect your investment in Datacard solutions by using only Datacard Certified Supplies. At Datacard Group, we engineer superior performance and reliability into every system-matched supply item we offer. For you, that means smooth printing, brilliant image quality, high security and exceptional performance. With sales and service in more than 120 countries, Datacard Group is your direct connection to superior supplies and on-demand support when and where you need them. For exceptional quality and service, trust Datacard Group — your best choice for supplies. To ensure you are using Datacard® Certified Supplies, look for our distinctive *blue* cores with platinum flecks®.

Ribbon kits include all necessary cleaning supplies for the FP65i financial card printer's daily operations. Each kit includes: one ribbon, one isopropanol cleaning card and one adhesive cleaning sleeve. Additional cleaning cards and cleaning sleeves can be ordered separately.

*Actual yields for monochrome ribbons may be greater due to ribbon saver features.

**Indent ribbon yield = up to 450 7 character cards and up to 1050 3 character cards. Yields may vary depending on font size, print length per card, and frequency of printer initialization cycle.
